At Inner-Vision Education Center, LLC we seek to maintain the highest standards of professionalism in our business practices and in individual care. This is and will continue to be the mantra of our business. Inner-Vision Education Center, LLC was formed in 2007 to be a Center of Excellence by providing supports to individuals with intellectual disabilities in our community.

"Education is for improving the lives of others and for leaving your community and world better than you found it."

~Marian Wright Edelman~
OUR MISSION

We are committed to being a center of excellence by providing person-centered supports that fosters relationships of independence to individuals with intellectual disabilities. Furthermore, we find and develop the gifts of each person, develop a vision that express these gifts, build a support group to make these ideas happen, and build a community network of acceptance by having only the most highly qualified and trained support staff.

At Inner-Vision Education Center, we are committed to the complete wellness of the individuals and families we serve. Our program uses a multi-cultural systems approach by providing supports to individuals and training techniques for providers. Our educational curriculums focus on multiple-intelligences to support individuals with mild to moderate intellectual disabilities.

Inner-Vision Education Center, LLC Day Support Program provides structured day placement and training for individuals with intellectual or other developmental disabilities who may not be eligible for other training programs, but who could benefit from social skills, pre-vocational and instrumental activities of daily living training. Programs are center-based with a ratio of 1:4.

The goal of Inner-Vision Education Center Day Support is to:

- Utilize community supports and services such as educational programs, contract work, recreational centers and public libraries.
- Develop social, job-related, functional, and life based skills for a higher employment rate.
- Teaching the latest innovations in computer technology
- Teach individuals effective ways to interact in his/her environment.
- Develop self-esteem and self-worth.
- Develop healthy social relationships.
- Experience work-based opportunities.
